

Formação prática para agricultores e veterinários: Novas medidas de luta contra a resistência antimicrobiana Portugal

Processo de registo

Para registar a sua participação, siga os seguintes passos:

1. Clicar nesta [hiperligação](#)
2. Preencha o formulário de inscrição online até dia 16 de maio de 2024, quinta-feira.
3. Receberá um email a confirmar a receção da sua inscrição.

Note-se que o facto de se inscrever **não significa que a sua participação na formação esteja confirmada.**

Para garantir um elevado nível de representação de diversos sectores, as vagas de participação devem ser equilibradas entre agricultores e veterinários, assim como, entre os diferentes sectores (bovinos, suínos, pequenos ruminantes, aves de capoeira, cavalos, coelhos, peixes, entre outros). No entanto, a formação será transmitida em direto.

Obrigado pela vossa compreensão!

**Todos os participantes devem inscrever-se através do formulário online. Não aceites formulários de inscrição fora do prazo*

Hands-on training for farmers and veterinarians: New measures to fight antimicrobial resistance Portugal

Registration process

To register your participation, please follow these steps:

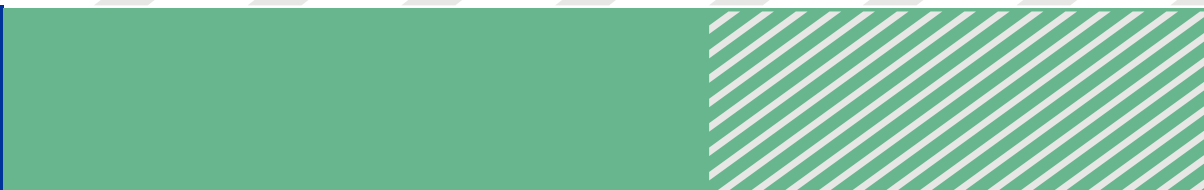

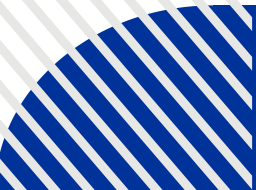

1. Click on this [link](#)
2. Fill in the online registration form until Thursday 16 May 2024.
3. You will receive an email confirming that we have received your registration.

Please, note that registering ***does not mean that your participation in the training is confirmed.***

To ensure a high level of representation from diverse sectors, participation slots are to be balanced among farmers and veterinarians. Also, among the different sectors (bovine, swine, small ruminants, poultry, horses, rabbits, fish, among others). However, the training will be streamed.

Thank you for your understanding!

**All participants must register through the online form. No registration forms will be received after the deadline.*

Antimicrobial resistance hands-on training for farmers and veterinarians in Portugal

HADEA/2023/OP/0009

Hands-on training (HoT) targeted to farmers and veterinarians working with food-producing animals to support the Farm-to-Fork (F2F) strategy target and an efficient implementation on the ground of the new measures to fight antimicrobial resistance.

www.amrfvtraining.eu

REGISTRATION PROCESS

All participants must register through this online form to participate onsite in the hands-on training for farmers and veterinarians in Portugal to fight Antimicrobial Resistance on 6 & 7 June 2024.

To allow the correct preparation of the necessary logistics for the event, **the deadline to register is Thursday 16 May 2024 for those participants who will attend the training onsite.**

Online registration is available via Zoom on our webpage: www.amrfvtraining.eu
